

MECHANICAL PROJECT ENGINEER

Introduction

Clean Energy Consulting (CEC) is a well-established BC company with a passion for building outstanding projects. With involvement at all stages of project development, we strive to better understand and fully accomplish the project outcomes. Our self-directed, hands-on team enjoys the opportunity to be involved from the concept through into operation. This allows our team to learn and improve while providing ongoing challenges and opportunities for development.

Summary

CEC is looking for a talented, passionate individual to be part of our Mechanical Engineering Team. As a part of this team, the Mechanical Project Engineer will become part of our project design group and will have mechanical engineering and project management responsibilities on a diverse array of projects for the company. This is a unique opportunity to contribute to a program of aspirational projects focused on meaningful social and environmental outcomes.

Duties and Responsibilities:

- Provide project engineering and mechanical engineering services on a variety of projects
- Provide leadership, guidance, and mentoring to junior staff
- Lead select projects

Knowledge, Skills, Outlook, and Experience:

- Engineering or Technical degree, plus five or more years of experience working as a mechanical engineer with design and start-up experience
- Experience within the forest products or pulp and paper industries would be an asset
- Good knowledge of construction and design methods and processes
- Display a high degree of accuracy and attention to detail in completion of tasks
- Display a high level of initiative with a strong work ethic and the ability to work well under pressure
- Have superior social, communication, and interpersonal skills
- Ability to deal with clients, employees and others in a diplomatic and tactful fashion

The position is based in our Prince George office. CEC offers a professional and engaging working environment with competitive compensation and benefits packages.

Please forward a resume with cover letter by email to: careers@cleanenergyconsulting.ca. We thank all applicants for submitting their resumes; however, only applicants who are being considered will be contacted.
